Hi, Paula, I have prepared responses to CCoDs technical comments on the OU2 DSR and have made the revisions to the document cited in the comment responses. I am including the revised DSR text if you want to check the revisions.

Most of CCoDs comments deal with the fact that they did not receive the raw analytical results that are in Appendix D of the DSR. I had put together hard copies of the report with the appendices included under the assumption that we were going to transmit hard copies to them. If you think the responses are adequate. I can transmit the hard copies to you for distribution.
